Subject: Southwest Alaska Salmon Science Symposium

Greetings -

I want to invite you to attend the upcoming Southwest Alaska Salmon Science Symposium. The Symposium includes an evening presentation for the public on Wednesday, April 13th from 7-9 by University of Washington researchers, Dr. Tom Quinn and Dr. Daniel Schindler on their work with salmon sustainability and biodiversity in Bristol Bay. The next day, Thursday April 14, is a day-long symposium that will include a more in-depth presentation by Drs. Quinn and Schindler, and an afternoon panel by a number of agency, University of Alaska and consulting salmon researchers. The purpose of April 14th symposium is to look in depth at salmon habitat research in Bristol Bay and identify potential research gaps.

The day long event on April 14 will run from 8 am to 5 pm and is free and open to the public. Both events will take place at the Egan Center in downtown Anchorage. Thursday's day long symposium will be followed by the opening of an exhibit at the Anchorage Museum, called "Sailing for Salmon: 125 Years of Commercial Fishing in Bristol Bay." The day-long symposium will be available via videoconference in Juneau, Fairbanks and Dillingham.

To register for the day long event, please email Katrina Mueller at [Katrina\\_Mueller@fws.gov](mailto:Katrina_Mueller@fws.gov). The attached poster provides details of the Wednesday and Thursday events. Please help us circulate information about this important event.

Thank you, Paula
